

CHIRAG TAPRE

Aspiring Full Stack Developer & DevOps Engineer

Nashik, Maharashtra | 9403006839 | taprechirag150@gmail.com | linkedin.com/in/chirag-tapre-47a426192

SUMMARY

Pre-final year Electronics & Communication Engineering student and Full Stack Developer with hands-on experience building web applications using React.js, Node.js, Java, Python, and PostgreSQL/MongoDB. Currently interning as a Python Stack Developer at Infosys Springboard, building a full-stack platform with Angular, FastAPI, and PostgreSQL. Strong foundation in Data Structures & Algorithms, database design, API integration, and Agile collaboration, with growing exposure to DevOps practices (Docker, AWS, CI/CD) and system design. Quick learner focused on delivering scalable, high-quality software solutions.

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, TypeScript, HTML, CSS

Frontend: React.js, Angular, Tailwind CSS, HTML5, CSS3

Backend: Node.js, Java (Full Stack), FastAPI, REST API Integration

Databases: PostgreSQL, MongoDB

DevOps & Tools: Docker, Git/GitHub, AWS (Learning), CI/CD Fundamentals, n8n

Core Concepts: Data Structures & Algorithms (Python), System Design Fundamentals, Agile/Scrum

Professional Skills: Critical Thinking, Strategic Thinking, Project Management, Problem-Solving, Team Collaboration

EXPERIENCE

Python Stack Intern | Infosys Springboard

June 2026 - Present

- Developing a full-stack Vendor Reliability Intelligence & Procurement Risk Management Platform using Angular, FastAPI, and PostgreSQL.
- Implementing vendor management, procurement workflows, and performance tracking modules with role-based authentication.
- Building reliability scoring logic and analytics dashboards to surface actionable procurement insights.
- Collaborating on API design and database schema to ensure scalable, maintainable full stack architecture.

PROJECTS

BillBuddy AI | Personal Project (Testing Phase)

- Developing a full-stack AI-powered expense sharing and bill management application using React, TypeScript, Tailwind CSS, and Supabase.
- Implemented secure authentication, real-time bill management, payment tracking, and participant settlements.
- Built automated reminders and dynamic dashboards for tracking shared expenses and balances.
- Currently extending the platform with AI-driven spending insights, receipt scanning, and integrated payment features.

EDUCATION

Bachelor of Engineering (BE), Electronics and Communication Engineering | Savitribai Phule Pune University (SPPU)

2024 - 2028

CERTIFICATIONS

- Introduction to Front-End Development
- Deloitte Australia - Cyber Job Simulation
- Tata - GenAI Powered Data Analytics Job Simulation
- McKinsey.org Forward Program
- Cybersecurity for Everyone
